Responsible Office: [Insert Division or Office]

1. Purpose

The purpose of the Course Add/Drop Policy is to provide students with a structured and equitable process for adjusting their academic schedules within a defined timeframe. This policy ensures that students have the opportunity to make informed decisions about their course enrollment based on academic goals, personal circumstances, and advising support. By establishing clear deadlines and procedures, the policy promotes academic integrity, supports student success, and maintains the operational efficiency of the university's registration and instructional systems.

2. Scope

This policy applies to all undergraduate and graduate students enrolled in credit-bearing courses at the university, including those in traditional, online, and hybrid formats. It governs the procedures and timelines for adding or dropping courses during the academic term, including regular semesters and non-traditional sessions such as summer or intersession. The policy also applies to faculty and administrative staff responsible for advising, registration, and academic recordkeeping. Exceptions to this policy may be granted only under documented extenuating circumstances and must follow the university's formal petition process.
