

Student Registration Guide on Linked Courses

Linked Courses

It's important to know about Linked Courses prior to attempting to register for your classes. Linked Courses are when a course is linked to another and you **MUST REGISTER FOR BOTH AT THE SAME TIME**. We link courses to ensure that the right course is selected and that it is not missed during the registration process. If a course is LINKED you will see the blue icon shown below.

If you click on the <u>Linked icon</u> you will see this detail message. If you want more information on linked classes you then click on the **Course Title**.

When you click on the **Course Title** you will be able to view Class Details. A list of options is to the left and can provide you with other important information like the courses that are linked to that selected course. Linked Courses start with the same number EX) BIOL 110-02 (Lecture) the linked course is BIOL 110-02 (Lab).
